

GREENEVILLE LODGE NO. 3 F. & A. M.

IN THIS ISSUE: YR GROUP MEETING

Greenville Lodge News

August was a relatively relaxed month compared to last month. We did raise a new Brother to the sublime degree of Master Mason. Brother Micah McCray received his third degree on August 11th.

Commandery Inspection season has begun and was in full force in East Tennessee the final week of August. Greenville Commandery No. 43 will be having their Inspection on September 3rd. A meal will be served at 6:00 p.m. and will start the meeting at 7:00 p.m.

Greenville Chapter and Council will be stepping into the light once again. They have been dark and not met for the months of June, July, and August. September is finally here and will be back in session. The meeting will be held September 14th. Greenville Chapter No. 135 will meet at 7:00 p.m. and the Council will follow at the conclusion of the Chapter meeting.

The \$500 scholarship is awarded annually to one local graduate. Hannah Julian is a 2015 honors graduate of West Greene High School. She will begin college this fall at Walters State where she will study nursing.

Julian is the daughter of Brian and Hannah Julian and the late Rhonda Julian. Hannah Grace Julian is the 2015 recipient of the Greenville Lodge Masonic scholarship.

Greenville was host to the District 12 Grand Chapter and Grand Council Group Meeting on July 11. Once again, we had the largest attendance of any of the group meetings across the state. There were 86, including Most Excellent Grand High Priest Lou Gafford, Deputy Illustrious Grand Master Wayne Elder, and a number of other Grand Officers, who joined us for the picnic. A special thanks goes out to Royce Peterson for organizing the event and to J.C. Jones for cooking the burgers.

A new Wisdom series video was released this month. In this episode, the 47th Problem of Euclid is discussed. Learn about the history of Pythagoras and how his theorem of right triangles directly translates into Tennessee Freemasonry. Discover other Masonic relationships proposed in Euclid's Elements. Find out who discovered Pi and how it is connected to Hiram Abiff. You can find the video by using the link below.
